

Office Product Office Pouch Laminator

Features

- 6-roller system provides consistent, even temperature to ensure professional quality lamination.
- Easily adjust the 12 speed controls to fit your lamination needs.
- High speeds ranging up to 8.8ft/min (2700mm/min).
- Ability to check the current temperature of the rollers.
- Automatic cooling system rotates the rollers after lamination to prevent damage by cooling them evenly.
- During stand-by the temperature automatically changes to 176°F (80°C) after 1 hour.
- Detachable front cover provides easy access to clean the rollers.
- Accepts hot film thickness up to 10mil (250mic).
- Cold lamination possible.
- Roller protection : Rollers keep rotating during cooldown to 80° to avoid damage

Specification

Model Name	HSH-1201N
Dimensions	22.8"x11.4"x4.9" (in) 580x290x124 (mm)
Max.Laminating Width	13 (in) 330 (mm)
Max.Lam. Thickness	1/10" (in) 3mm
Film Thickness	3-10 (mil) 75 ~ 250mic
Heat method	Hot Roller
Warm up time	5'30"
Cooling system	DC FAN
Motor Type	DC GEARED MOTOR
Laminating speed	8.86 (ft/min) 2700 (mm/min)
Number of rollers	6
Unit weight	32 (lbs) 14.5Kg
Voltage supply	100V/120V/220 ~ 240V(50 ~ 60Hz)
Power Consumption	1200W/1200W/1200 ~ 1300 W
